#### FELHASZNÁLÁS:

Pedestrian zones and cycling routes with low traffic intensity. They are ideal for private and residential developments

#### MINŐSÉGI FELTÉTELEK:

- Compliant with SR EN 1433:2003
- Compliant with EU Regulation No. 305/2011
- Declaration of performance

#### ELŐNYÖK:

- Easy to handle and install
- UV-resistant
- Various widths and mounting heights
- Use in residential areas or private homes
- Long lifespan

#### TERMÉKGARANCIA:

- 20 years - with proper installation, storage, and usage according to instructions.

## SZERELÉS

The drainage system with channels can be installed without a sand trap because both ends of the channel can be tightly sealed with end caps, and the discharge point towards the sewer network can be made through the vertical connection of the channel.

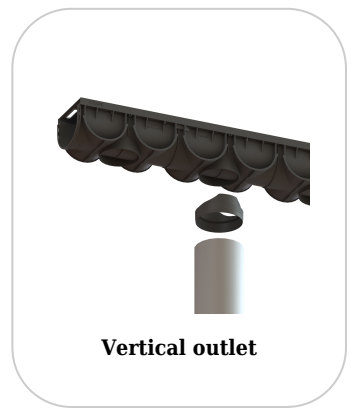

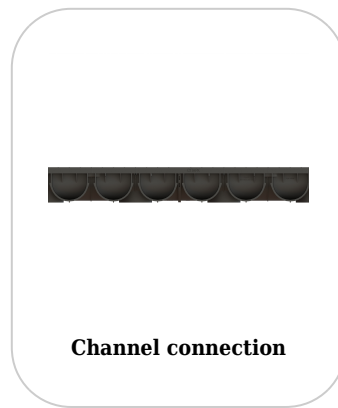

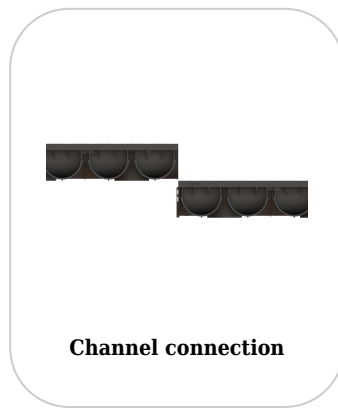

For efficient installation, we recommend using the G12M29C sealant.

It's used for sealing channels, pipes, and drainage systems.

- Curing time: 24h/2-3 mm
- Operating temperature: +5°C to +40°C
- Maximum storage temperature: 32°C

BASE sealant, construction products, 310 ml tube (G12M29-C).
