#### FELHASZNÁLÁS:

The EASY range of channels is designed for use in pedestrian areas and cycling routes with low traffic intensity. Due to their constructive characteristics, they are ideal for applications in private and residential buildings, easily integrating into modern and functional layouts.

#### MINŐSÉGI FELTÉTELEK:

- Compliant with SR EN 1433:2003
- Compliant with EU Regulation No. 305/2011
- Declaration of performance

#### ELŐNYÖK:

- Easy to handle and install
- UV-resistant
- Various widths and mounting heights
- Use in residential areas or private homes
- Long lifespan

#### TERMÉKGARANCIA:

- 20 years - with proper installation, storage, and usage according to instructions.

## SZERELÉS

The channels drainage system can be installed without a collector chimney because both ends of the gutter can be closed with end pieces, and the discharge point to the sewer network will be made through the vertical connection of the gutterchannel. For the correct operation and durability of the system, it is recommended to strictly follow the installation instructions provided by the manufacturer, as well as to have the installation work carried out by qualified and authorized personnel. Correct installation guarantees the optimal performance of the drainage system and prevents any problems arising during operation.

For efficient installation, we recommend using the G12M29-C sealant. It's used for sealing channels, pipes, and drainage systems.

- Curing time: 24h/2-3 mm
- Operating temperature: +5°C to +40°C
- Maximum storage temperature: 32°C

BASE sealant, construction products, 310 ml tube (G12M29-C).
