FELHASZNÁLÁS:

The lawn divider is a decorative element very often used in landscaping, parks and gardens, pedestrian areas and squares. It is intended to separate green spaces from pedestrian alleys or to build winding areas in floral combinations with different designs.

MINŐSÉGI FELTÉTELEK:

- Technical Approval
- Technical Approval
- Declaration of Conformity

ELŐNYÖK:

- Resistant to UV rays
- Resistant to mechanical damage (lawn mower, etc.)
- Resists temperature variations in winter/summer
- It has a very simple and aesthetic design.

TERMÉKGARANCIA:

- 24-month warranty, subject to compliance with assembly, storage and operation instructions.

SZERELÉS

To install the curb, no special construction tools are needed; anchors are used to secure it.

 Galvanized Steel anchors are recommended for good stabilization and ease of installation of lawn dividers.
