

Drain: Rigola INOX STAINLESS modulara tip fanta L H90 500x500x90 (992044)

992044

500 mm LENGTH 80 mm

5000 mm

USAGE:

Modular gutters and siphons made of AISI304 stainless steel are designed for collecting wastewater inside buildings, offering increased safety, corrosion resistance, environmental and food protection.

QUALITY CONDITIONS:

- According to SR EN 1433:2002
- According to EU Regulation No. 305/2011

ADVANTAGES:

- safety and health
- resistance to high and low temperatures
- protection of food and the environment
- durable and corrosion-resistant material
- high resistance in aggressive environments
- hygienic surfaces, easy to clean

LIFESPAN:

• 20 years - subject to compliance with assembly, storage and operation instructions.

INSTALLATION

The modular installation system ensures easy and durable assembly, with the possibility of connecting to drain points directly via the gutter or via end plates with pipe connection.

*Attention: a stainless steel transition flange is used for the connection to the siphon.

We recommend installation in areas suitable for the load class, by specialized personnel. For efficient installation, we recommend using the sealant G12M29C.

It is used for sealing gutters, pipes and drainage systems.

- Curing time: 24h/2-3 mm
- Operating temperature: -10° C to +40° C
- Storage conditions: Store in a ventilated area, at low temperatures.

BASE sealant, construction products, 310 ml tube (G12M29-C).

Stainless steel drains and siphons can be used both in industrial spaces, factories or professional kitchens, and in private, residential areas. The most common areas of use, which require protection against bacteria and increased resistance of drainage systems, are:

- food industry
- pharmaceutical/medical industry
- professional kitchens
- chemical laboratories
- processing/packaging plants
- clinics or recovery centers
- hotels
- hospitals
