USAGE:

Sidewalks, pedestrian areas and similar areas, parking lots or multi-storey car parks.

QUALITY CONDITIONS:

- According to SR EN 1433:2002
- According to EU Regulation No. 305/2011
- Declaration of Performance

ADVANTAGES:

- Easy to handle and install
- UV-resistant
- Various installation widths and heights
- Use in residential areas or private homes
- Long service life

LIFESPAN:

- 20 years - subject to compliance with assembly, storage and operation instructions

INSTALLATION

The Base gutter drainage system can be installed without a collector chamber because both ends of the gutter can be closed with end pieces, and the discharge point to the sewer network will be made through the vertical connection of the gutter.

For efficient installation, we recommend using G12M29C sealant.

It is used for sealing gutters, pipes and drainage systems.

- Curing time: 24h/2-3 mm
- Operating temperature: -10° C to +40° C
- Storage conditions: Store in a ventilated area, at low temperatures.

BASE sealant, construction products, 310 ml tube (G12M29-C).
