FELHASZNÁLÁS:

The stainless steel trap for drainage is a useful, pragmatic, and modern solution used for evacuating wastewater and directing it toward underground sewage lines. It is used in private or public kitchens, laboratories or any environment that requires resistance to chemical substances or high sanitary levels.

MINŐSÉGI FELTÉTELEK:

- According to SR EN 1253-1:2015.

ELŐNYÖK:

- Easy access for inspection and cleaning
- Easy to clean and disinfect
- Corrosion resistance
- Resistant to heat and to detergents and disinfectants
- Suitable for the food industry
- Long lifespan

TERMÉKGARANCIA:

- 20 years - with proper adherence to installation, storage, and operation instructions.

SZERELÉS

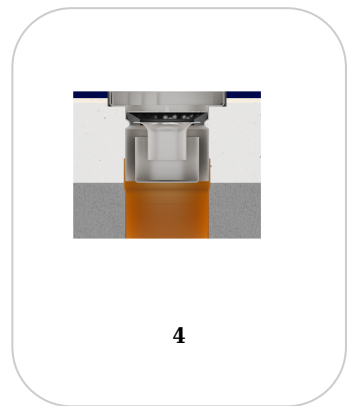

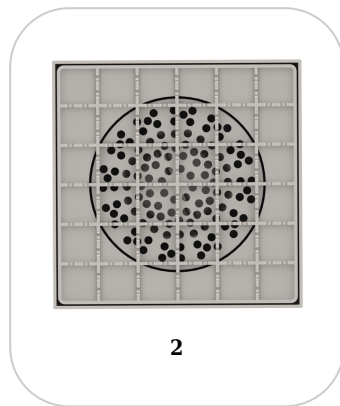

The commissioning of stainless steel traps should be done by specialized personnel, in compliance with the manufacturer's instructions and safety and stability requirements. Stainless steel traps can also transport other types of industrial wastewater, provided there is no risk of damaging components or harming health.

! For efficient installation, we recommend using the G12M29-C sealant. It is used for sealing trenches, pipes, and drainage systems.

- Cure time: 24 hours for 2-3 mm thickness
- Temperature resistance: -40° C to +70° C
- Processing temperature: +5° C to +40° C

BASE sealing paste (sealant) for PP-FB-PB trenches, tube, 310 ml (G12M29-C).
